

Fit for The Future

Thriving, not just surviving, in a disrupted world

THE WORLD IS CHANGING FASTER THAN EVER BEFORE. DIGITAL DISRUPTION, GLOBAL REACH, AND THE CHANGING WORKPLACE AFFECT US ALL, AND AT ALL LEVELS - INDIVIDUAL, TEAM, ORGANISATION, AND COMMUNITY.

In the past, it was possible to resist the change and just get by, but that's no longer an option because the changes affect us in so many ways. That's bad news if you think you can get by with what has always worked before. But it's exciting news if you're willing to embrace the new opportunities.

Broadly, our world has changed in three big ways - it's Fast, Flat and Free: Change is happening faster than ever before, we're breaking down hierarchies and control, and prices are falling and competition is rising. These changes have had a profound impact on us all.

The world's economic power is shifting from North to South, and from West to East, which means the 21st century is the "Asian Century". Countries like Australia - with the right time zone, established relationships, and a better understanding of the region than the rest of the world - are

perfectly placed to take advantage of these opportunities.

Take an inspiring, eye-opening, and engaging ride into the future to learn about the global megatrends shaping your industry, the mindset that helps you lead the change, and the skills you need to get things done in a fast-changing world.

Key Messages

- » **The global megatrends** shaping business and society
- » **Influence and power** in the Age of Access
- » **Change is the new normal**
- » **Take more control** of your own future

Style and Duration

This 45-60 minute keynote is Gihan's most-booked presentation, and is suitable for all audiences. Use this for a high-impact opening keynote, an inspiring closing keynote, or the opening session the morning after the Gala Dinner.
